Heal Your Cat The Natural Way

Synopsis

These two titles are perfect for any pet owner interested in exploring alternative therapies for his or her pet. A thorough introduction to the most popular alternative therapies covers acupuncture, herbal remedies, homeopathic treatment, and Bach flower essences. The rest of the book contains complete instructions for using these methods to treat common illnesses. A key to the various treatments allows readers to determine at a glance which conditions are best treated with which remedies. Attractive four-color photos and a superb design will satisfy even the most casual readers.

Customer Reviews

This book is not only very informative, it's very interesting as well. Who would have thought that nasturtiums have a natural antibiotic effect? Or that peppermint is good for your cat's travel sickness and strawberries help relieve your cat's dry cough. The book covers Aromatherapy, Homoeopathy, Herbal Medicine, Bach Flowers and Acupuncture. First aid tips and handling emergencies are included as well. The book describes common diseases and how you and your veterinarian can treat them. It even shows you how to administer the treatment. It's not a big book, only 128 pages, but I've found those pages have quite a bit of useful information even if I never choose to administer some of the therapies discussed. I did get lost among the abbreviations and latin terms used for homoeopathic therapies, however, there is so much more to this book and I learned so much from it that I'm glad I have it on my bookshelf. I'm using this book to help maintain my cat's healthy life. This

book is definately an informative and interesting resource for all cat owners to have.

My nr. 1 go to book with any cat health issues. Very, very good book. A must have. I have over two shelves full of natural health care books for pets, but this is the most concise, best written book ever. Bravo, Richard Allport!
