Customer Reviews

If you have ever worked on any small engine this is going to leave you cold. But if you have never even removed the wire from your spark plug, this book will give you some confidence to look at things from the correct angle.

tells enough for you to keep it running but not to fix it for certain problems so you better off taking it

to someone

book is clear and precise I am still getting my shop set up so haven't had a chance to use it

Simple explanation of theory and troubleshooting. Addresses common problems and stresses the need for consistent routine maintenance. Worth the read.
