## Customer Reviews

"The \$500 Wedding: How to have a beautiful wedding and reception for \$500" has a few good ideas. In truth, it is almost completely dependent on friends and relatives "pitching in". There is nothing really wrong with this but the book has actually very few useful ideas for cutting costs. Borrow this and get someone else to that.... If you are really planning to spend only \$500, get married without the fanfare and have a potluck BBQ in the backyard!

Had a few cheesy ideas like going potluck for your wedding and buying a dress you don't hardly even like just because it's cheaper, eyeroll, but had really great ideas in it, too. My budget went over \$500, but not by much!

This book provided a lot of great ideas for saving big on my wedding. Thank you so much, to the author, for writing this book and putting it on the market for us brides-to-be who want a nice, but very inexpensive wedding.

This is great for if you haven't started planning wedding yet. As I already have most of the big things in place the majority of the book did not apply to me, but the small things and lists were very helpful.

This book was a quick and easy read...definitely worth it. There were a lot of really good and useful ideas; however, I'm still not quite convinced I can do it all under \$500.

Gave some helpful tips and ideas - nothing against the book but most of the ideas are online and don't have to spend the money for the book.

I love the book, but went to go re download it and it wouldnt let me cause of licenses purposes. How can I get it to work on my device again. I had to get a new kindle and the book wont download.
